# MD HAMID AZAM

Lucknow, Uttar Pradesh, India

7061790653 — hm2563749@gmail.com — LinkedIn — GitHub — LeetCode — Portfolio

## Professional Summary

Computer Science Engineering undergraduate with a strong foundation in Data Structures  Algorithms, Java, SQL, OOP, and full-stack development. Solved 150+ DSA problems using Java and built/deployed full-stack applications with React.js, Node.js, Express.js, MongoDB, REST APIs, JWT authentication, and payment integration. Seeking a Software Engineering Internship to contribute to product-focused engineering teams.

## Education

**Babu Banarasi Das University (BBDU)** **2024 – 2028**

*Bachelor of Technology in Computer Science and Engineering* ***CGPA: 7.4/10*** *Lucknow, Uttar Pradesh*

## Technical Skills

**Programming Languages:** Java, JavaScript (ES6+), SQL, Python (Basics)
**Frontend:** React.js, HTML5, CSS3, Tailwind CSS
**Backend:** Node.js, Express.js
**Databases:** MongoDB, MySQL, PostgreSQL
**Developer Tools:** Git, GitHub, VS Code, Postman, Figma
**Deployment:** Vercel, Render
**Core Concepts:** REST APIs, JWT Authentication, Context API, Responsive Design

## Projects

**ZeroTrade – Full Stack Stock Trading Platform** | *React.js, Node.js, Express.js, MongoDB* **Feb 2026**

- Developed a full-stack MERN application following client-server architecture with JWT authentication and protected REST APIs.
- Developed 10+ responsive modules serving authentication, portfolio tracking, watchlists, holdings and order management.
- Designed and implemented 15–20 RESTful APIs using Express.js and MongoDB for authentication, portfolio management and user operations.
- Implemented Context API for efficient state management and optimized React components for improved user experience.
- **GitHub:** github.com/MdHamidAzam/ZeroTrade **Live:** zero-trade-aftx.vercel.app

**Dayare Haram – Hajj & Umrah Booking Platform** | *React.js, Node.js, MongoDB* **Jul 2026**

- Built a modern Hajj & Umrah booking platform featuring secure authentication, package browsing and inquiry management.
- Developed an admin dashboard for managing bookings, travel packages and customer inquiries with role-based access.
- Integrated JWT authentication, AI chatbot support and scalable backend architecture using MongoDB.
- Designed a fully responsive interface optimized for desktop, tablet and mobile devices.
- **GitHub:** github.com/MdHamidAzam/ihram-legacy-hub **Live:** dayare-haram-hajj-and-umrah.vercel.app

**ZyraAI – AI Chat Application Platform** | *React.js, Node.js, Express.js, MongoDB* **Aug 2026**

- Built a full-stack AI chat application with OpenAI API, persistent conversations, thread management and responsive React-based user interface.
- Implemented REST APIs with Express.js and MongoDB for chat threads, messages and conversation history.
- Deployed frontend on Vercel and backend on Render with MongoDB Atlas database.
- **GitHub:** github.com/MdHamidAzam/ZyraAi **Live:** zyra-ai-mu.vercel.app

## Achievements

- Solved **150+** Data Structures & Algorithms problems on **LeetCode** using Java.
- Built and deployed **3+** full-stack web applications using the MERN stack.
- Maintained **7** public GitHub repositories with clean documentation and version control practices.
- Continuously strengthening problem-solving skills and system design fundamentals for Software Engineering interviews.
